

Call for “Junior Booster” Projects 2024 Academy "Complex Systems" UCA^{JEDI}

About

The Academy "Complex Systems" offers financial support to recently hired young researchers.

The grant aims to facilitate the start-up or consolidation of a research activity on a theme related to the study of complex systems and the activities of the Academy, details by clicking [here](#).

The objective is to make University Côte d'Azur a welcoming and attractive site for high-level researchers.

Eligibility criteria

To be eligible, applicants must be recruited as **Chargé de Recherche, Maître de Conférence or an equivalent permanent position in a research unit of University Côte d'Azur or of an IdEx partner.**

They must have taken up their **first position less than 3 years** before the call closure (after April 1, 2021).

To meet eligibility criteria, the application must also:

- justify its "booster" effect on the young researcher's research activity;
- demonstrate the multidisciplinary nature of the project;
- show the structuring of a national or international cooperation,
- and/or the development of a collaboration with a socio-economic partner.

In addition, any effort to promote and disseminate research work will be particularly appreciated.

Eligible expenses

Eligible expenses are limited to **operating costs** (*missions, consumables and small equipment, books, etc.*), **the acquisition of equipment** (*exceeding 4k€ with supporting estimates*), which, once purchased will become the property of the beneficiary institution/organization, and possibly internship bonuses.

The maximum grant awarded by the Academy will be **30k€** and must be duly justified.

Grants must be committed and consumed by December 15, 2025 (notion of service done).

Calendar

- Call open on the Nuxeo platform from **September 14, 2023 until March 1, 2024 at 5 p.m.**
- Results communicated from the end of March, beginning of April 2024.

Call for "Junior Booster" Projects 2024 Application form
