SOPHI.A SUMMIT - AI INTERNATIONAL EVENT

Université Côte d'Azur and Sophia Antipolis, Europe's leading technology park, are organizing the sixth edition of the SophI.A Summit on **November 22, 23 and 24, 2023.**
This international symposium presents recent advances in **Artificial Intelligence** and its applications. This symposium offers a premier forum for exchanges and meetings between researchers from both public institutes and private companies. The event offers a unique opportunity for researchers working at the cutting edge of AI to maintain technical currency, and to network with leading experts.

Sophia Summit 2023 will take place in Sophia Antipolis,
and will be available on line.

The conference is hosted by the "3IA Côte d'Azur", the National Institute which is positioned at the forefront of AI Research worldwide. Scientific conferences, debates, round tables, posters give ample opportunities for academic and private company researchers to have multiple exchanges and to develop cross-fertilization.

CONTRIBUTION PROCESS: SUBMIT YOUR RESEARCH WORK

Contributions are solicited on the following topics, in the form of speeches, poster or demonstrations.
- Developments in the foundations of AI
- AI and health,
- AI and biology,
- AI and smart territory,
- AI and management,
- Sustainable AI

These themes will be addressed in a transdisciplinary manner, including scientific, economic, sociological, and ethical aspects. Sessions will cover specific themes, and will include invited or keynote speeches, oral presentations, as well as posters and demonstrations.

Proposals must be submitted via sophia-summit.com
Please submit at your earliest convenience, and **no later than June 30, 2023.**

Submissions should be drafted **in English** and may concern ongoing work, reviews or even contributions that have already been presented/published in other conferences.
Each submission will have to include up to **6 keywords,** for classification purposes.
All selected talks may be presented on the conference premises, or online by Visio conferencing. Details will be provided to the authors in due course.

CALENDAR

Submission deadline	Notification acceptance	**Registration opening**	Early registration closure	**Conference dates**
June 30, 2023	**By July 7, 2023**	**June 1, 2023**	**September 30, 2023**	**November 22-24, 2023**

SUBMISSIONS FORMS

We welcome submissions for talks, paper, or demo pertaining to the conference themes.

Submission for a
TALK

4 000-character abstract (including spaces) accompanied by 3 to 5 bibliographic references.
An appendix in PDF format (e.g., to provide a figure or image) can be added to the submission

Submission for a
POSTER

2 500-character abstract (including spaces) accompanied by 3 to 5 bibliographic references.
An appendix in PDF format (e.g., to provide a figure or image) can be added to the submission. If the poster is selected for presentation, a 180s video will be requested at a later stage.

Submission for a
DEMO

2 500-character abstract (including spaces). Demos of commercial AI tools are not suitable. The abstract must justify how the demonstrated AI tools apply to use cases that raise issues of general interest. If the poster is selected for presentation, a 180s video will be requested at a later stage

AWARDS

Best PhD student poster award
All presented posters by PhD students are eligible for nomination for this award, which consists of a certificate and a 2000€ cash prize, given to the corresponding author of the poster.

Best CIFRE PhD student poster award
All presented posters by PhD students with an AITR (Industrial Agreement of Training through Research) contract are eligible for nomination for this award, which consists of a certificate and a 2000€ cash prize, given to the corresponding author of the poster.

Best demo award
Consists in a certificate and a 2000€ cash prize, given to the corresponding author of the best demo. Only authors from (any) industry are eligible.
