

Master Trainee in Biobank Management

"I want a direction to follow and challenges to stretch me"

**Nestlé Research, Clinical Research Unit
Lausanne, Switzerland**

**Internship (6 Months)
activity rate 100 %**

Demonstrating **excellent skills in manipulating robotic equipment and strong autonomy**, you will be responsible for managing the biobank biological resources. In this role you will be collaborating in a challenging scientific environment, highly automated and will be providing support to various internal and external stakeholders.

Nestlé Research is based in Lausanne, Switzerland and employs approximately 800 people. It consists of four major research institutes: Health Sciences, Material Sciences, Food Safety & Analytical Sciences and Packaging Sciences. Nestlé Research combines fundamental science at the highest level, high-end analytical platforms leveraged by all research teams, and strong prototyping capabilities to accelerate the translation of science into innovation. Nestlé Research published around 1,000 scientific publications in peer review journals over the last five years, and files about 80 patents every year. Nestlé Research collaborates with approximately 100 universities or research institutes around the world. Learn more about Nestlé Research at www.nestle.com/randd

Key responsibilities

- Register, handle, and store biological samples (plasma, stool, etc.) in a robot designed for storage
- Handle all informatics aspects associated with the samples (e.g. recording sample information in laboratory information management system, recording consent forms, etc.)
- Working closely with Biobanking Specialist on day-to-day operations as well as process improvements
- Assessment of the current Nestlé Research Biobank set-up against the ISO 20387:2018 norm

Education and experience

- Technical diploma in biology/biotechnology (CFC, BTS or bachelor) or related natural sciences
- Enrolled into a master program for biobanking
- Excellent understanding and usage of robotics and LIMS
- Fluency in English (French will be considered an advantage)

Show us that you demonstrate strong result focus and excellent communication skills. Being extremely rigorous and able to work in an automated environment is what will set you apart amongst the other candidates. Your team spirit, flexibility and readiness to work in challenging and sometimes noisy environment will be highly appreciated. Please apply in English at ondine.walter@rd.nestle.com by sharing your **CV, few lines on your motivation** to join us and the **dates of your internship (e.g. 1st Sept 2022 to 28th Feb 2023)**

The Nestlé Group is the world's largest food and beverage company with 91.4 billion Swiss Francs in sales in 2018. It is present in 190 countries around the world, has 413 factories and its 308,000 employees are committed to Nestlé's purpose of enhancing quality of life and contributing to a healthier future. Nestlé offers a wide portfolio of products and services for people and their pets throughout their lives. Its more than 2000 brands range from global icons like Nescafé or Nespresso to local favourites. Company performance is driven by its Nutrition, Health and Wellness strategy. Nestlé is based in the Swiss town of Vevey where it was founded more than 150 years ago. Learn more about our Group and reasons to join us on www.nestle.com.
